## EXPERIENCE

### ❖ Software Developer | App Mechanic

May 2025 - Present - London, Ontario (Remote)

Working as a MERN Stack Developer, Handling both frontend and backend part of the application

### ❖ Node and React Developer | Conversely AI

August 2024 - May 2025 - New Delhi (Hybrid)

Designed and **optimized real-time chat** and messaging features, including Conversation Panel, Chat Box and Broadcast Feature, improving user engagement and responsiveness.

Worked on **third-party API integrations**, including Karix API for whatsapp messaging automation and Razorpay webhook debugging, ensuring smooth transaction flows.

### ❖ Full Stack Developer Intern | HEXLEAP

August 2023 - November 2023 (4 Months) - Remote

I worked on a "Besecure 4 future", this project was built on **Next.JS (app router)** based project.

**Skills Used:** Back-End Web Development, REST APIs, Next.js, React Hooks, Front-End Development.

### ❖ Web Developer Intern | Code University

April 2023 - July 2023 (4 Months) - Remote

I worked on a Space theme website and also made their landing page and worked on their integrated backend API with the frontend.

**Skills Used:** Git, GitHub, React.Js, PHP

### ❖ Full Stack Web Developer | Freelance

November 2021 - December 2022 (1 Year 1 Month) - Remote

Led end-to-end development of multiple client projects, with a focus on delivering scalable and responsive web applications.

**Skills Used:** Git, GitHub, React.Js, Node, MongoDB

## EDUCATION

### ❖ Maharaja Surajmal Institute (Under Graduate)

Bachelor of Computer Application (**CGPA: 9.7**)

2022 - 2025

## PROJECTS

### ❖ CareerAI

A Full-Stack Platform using NextJS, ShadCN, Tailwind and Google Gemini API to assist users in exploring career growth, required skills, and **AI-powered resume/cover letter generation**.

**Integrated AI-driven prompt generation** for personalized career insights and document creation..

### ❖ Imagify

Developed an **AI-powered Image Generator** Web App that transforms user-provided prompts into unique images.
